

Spitsbergen – Svalbard The complete guidebook

Natural and human history –
Routes and regions –
Useful and important information

ISBN 978-3-937903-27-9 · Paperback ·
14,8 x 21,0 cm · 608 Pages

4th edition (2018)

This new edition (the 4th, from 2018) has got 608 pages in contrast to 512 before. All chapters have got a lot of updates and new information, including many improved maps.

This book does not only cover comprehensive information concerning all fields of possible interest, but is at the same time a photo book containing many colour images to illustrate many wildlife and flower species and to document landscapes and places from all over the archipelago.

»Spitsbergen – Svalbard« has detailed information about the flora and fauna of Spitsbergen, its nature and human history and detailed chapters about all regions, fjords, islands and settlements. 14 mammal species, 26 bird species and 29 flower species are described in detail and illustrated with colour photographs. Many sketch maps within the text provide geographical orientation. Furthermore, this books will answer questions concerning practical issues, how to travel in Spitsbergen, which seasons are good, relevant legislation, hazards out in the field and more.

Popular routes (hiking, snow mobile tours, cruises) are described in detail.

»Spitsbergen – Svalbard« has approximal 608 pages (A5, paperback) including more than 260 colour photographs to document the biological and geographical diversity of Spitsbergen.

30,00 Euro, retail price for resellers.

Additional shipping costs may apply depending on shipping address.
